Post-Doctoral Associate
University of Missouri

Location: Columbia, Missouri
Type: Full Time - Entry Level

Postdoctoral Research Associate: Biochemist/chemist with background in nanoparticle formulation and siRNA design for research projects focusing on the development of diagnostic and therapeutic nanoparticles for imaging and treatment of cancer. Experience with synthesis and characterization of macromolecular bioconjugates will be useful.

Interested candidates should contact Michael Giblin, PhD, Research Assistant Professor, fax 573-884-3052; e-mail: giblinm@health.missouri.edu. The University of Missouri is an equal opportunity/affirmative action employer. To request ADA accommodations, please contact our ADA Coordinator at 573-884-7278 (V/TTY).

Requirements:
Biochemist/chemist with background in nanoparticle synthesis and characterization for research.

Required Education: Doctorate

NOTES: Salary will be determined on level of experience

Post-Doctoral Associate
University of Missouri

Location: Columbia, Missouri
Type: Full Time - Entry Level

Postdoctoral Research Associate: Biochemist/chemist with background in immunoblotting, ELIZA assays, fluorescence microscopy and/or quantitative RT-PCR for research projects focusing on the development of diagnostic and therapeutic nanoparticles for imaging and treatment of cancer. Experience with synthesis and characterization of macromolecular bioconjugates will be useful.

Interested candidates should contact Michael Giblin, PhD, Research Assistant Professor, fax 573-884-3052; e-mail: giblinm@health.missouri.edu. The University of Missouri is an equal opportunity/affirmative action employer. To request ADA accommodations, please contact our ADA Coordinator at 573-884-7278 (V/TTY).

Requirements:
Biochemist/chemist with background in biochemical and molecular biological assays for research.

Required Education: Doctorate

NOTES: Salary will be determined on level of experience
